Thanks Regan. I have sent out the new link.

MICHAEL - Are you OK for giving the demo of the new UI? We can fit it in anytime during the course. Please
let me know what is convenient for you. It is probably best if it is after we have given the first two lectures so
they have been exposed to the old GUI so sometime Thursday afternoon or Friday.

See you soon,

Walter

Subject: Re: Instructions - EPANET Class - September 20 & 21, 2108

TO: Participants in EPANET class in Cincinnati

On behalf of Arnie Strasser and myself, your class instructors, we would like to welcome you to
the EPANET class next week. By now you should have received a welcome email from the
Urban Watersheds Research Institute with instructions on how to prepare for the class (see below
for a copy of the instructions). The most important steps are that you download the EPANET
software onto your computer and copy the input and data files to be used during the exercises
onto your computer. I have found it easiest if you copy all of the input and related data files into
a single folder and call it something like "EPANET input files". If you are having any problems
accessing or using the google drive files described in the instruction letter, I have created a single
zipped file containing all of the files needed for the exercises and attached them to this
email. You simply need to create the folder described above and unzip the attached files into
that folder.

If you have any problems or issues coping with the instructions, we will be happy to help you
with this at the class. Alternatively, if you are impatient about this, feel free to contact Arnie or
myself by email and we will try to help you remotely before the class via email. If you need help
in Cincinnati, you may want to show up a little early for the class so we can help you resolve any
problems. We are looking forward to meeting you and working with over the 2-day period.

Best wishes

Walter Grayman

> ### First, SOFTWARE AND HANDOUTS: There are several documents **you need to download to the laptop you will bring to the class**. Items #1 and #2 are for the software and user manual that you will need to install on your laptop. Item #3 contains files you will need for class workshops and others that related to this class.
>
> 1. Download and install on you laptop EPANET v2.00.12:

https://www.epa.gov/sites/production/files/2014-06/en2setup_0.exe

2. Download and save to your laptop the EPANET User's Manual:

   https://nepis.epa.gov/Adobe/PDF/P1007WWU.pdf

3. Download to your laptop folder containing PDF images of all presentations and input files for the class exercises: https://drive.google.com/drive/folders/15y5oUijBa4BfuAqTp4FZQIL4ppK0fZLy?usp=sharing

COMPUTERS:

Bring your own laptop, or prepare to share one with a classmate. THERE ARE NO LOANER COMPUTERS AVAILABLE. Also, download/install the software and other files listed above.

Next, LOGISTICS:

STARTIN TIME: The class will begin at 8:30 AM **on** both days.

SECURITY: Please bring your drivers license or passport if traveling from another country for check-in with EPA security. No ID, no entry. All visitors will all have to pass through a metal detector.

PARKING: site map is attached. Visitors are to enter through gate house #5. All vehicles will be screened and will be directed where to park.

CLASSROOM SETTING: Room 130/138. There will be a plug and surface area for a laptop.

NEARBY HOTELS: **Hampton Inn & Suites Cincinnati/Uptown-University Area - 3024 Vine Street, Cincinnati OH Kingsgate Marriott Conference Center at the University of Cincinnati - 151 Goodman Dr. Cincinnati OH**

LUNCH: Lunch is on your own, however EPA has a cafeteria and Room No AG-30 has been reserved down the hallway from the cafeteria for class members' use. Or, you may bring your own lunch. Coffee breaks will be taken at the cafeteria too.

We appreciate your interest in taking one of our classes and look forward to seeing you there.
